GERMAN TROOPS OVERPOWER LETTS LIBAU IS SEIZED

Surprise Attack on Provisional Government Ousts Officials.

STREETS OF CITY PATROLLED BY SOLDIERS OF GERMANY

Letts. Declare Germans Prevent Action Against Bolsheviki.

(Associated Press Telegram) Copenhagen, April 18.—German and Baltic-German troops have forcibly seized Libau and overthrown the Lettish provisional government, according to advices received by the Lettish press bureau here.

Lettish reserve troops in Libau were surprised by strong German forces on Wednesday which overpowered the Letts and disarmed and interned them. Later the Germans arrested the Lettish minister of the interior and several officials, it is said.

The surprise was possible, according to reports, because of the fact that Lettish troops had been sent to the front, while Baltic-German detachments had been brought back to Libau. The city now is held and patrolled by the Germans.

Premier Ullman has protested to General von der Goltz, commander of the German troops in Latvia and the latter has expressed his astonishment over the incident. The Letts accuse the Germans of constantly hindering them from mobilizing against the Bolsheviki which, it is said, account for the fact that Riga is still in the hands of the soviet forces.

A telegram was sent Wednesday evening by Premier Ullman to the Lettish representative in Denmark, reporting the seizure of Libau and adding that he, himself is safe and collaborating with the British mission and British warships in the harbor. The telegram stated that the Germans had occupied the city and the Letts had fled. It was added that the Germans demand that one-third of the members in a new ministry, which they insist shall be formed, shall be Germans. The telegram concludes by saying: "We will accede to nothing."

DANIELS VISITS RHINE FORTRESS

Secretary of Navy Watches Marine Patrol Boats Dart Around Craft In River.

(Associated Press Telegram) Coblenz, Thursday, April 17.—From a parapet of the Fortress Ehrenbreitstein, more than four hundred feet above the junction of the Moselle and Rhine, Secretary Josephus Daniels of the United States navy had his first glimpse this afternoon of American marines on duty. Patrol boats were darting back and forth among the barges and tugs on the river, the American flag streaming from the stern mast of each little boat.

At the point where the Moselle joins the Rhine stands a heroic statue of Emperor William, the first, said to be the largest of its kind in Germany. Beyond the statue there are great piles of lumber which aroused Secretary Daniels' curiosity as he looked down upon the activity of Coblenz which has been increased two fold by the American occupation of the city. It was explained to him that the lumber was intended for new buildings which will serve as recreation centers and barracks for the American soldiers of the army of occupation.

Mr. Daniels was taken through the underground passage of the Ehrenbreitstein fortress which were built partly by labor paid for by twenty million francs which the Germans exacted from France and was shown the accommodations of American artillerymen where but a few months ago thousands of German soldiers had been quartered. He also inspected the motorized equipment of the 17th artillery regiment which under Colonel E. W. McCabe, former cavalry officer and commander of Ehrenbreitstein, is said to be the first American artillery unit fully equipped with motors.

Daniels will tomorrow morning the second division which includes a brigade of marines. He will go to Weisbaden on Saturday and will return to Coblenz by way of the Rhine. He was accompanied to the fortress today by Mrs. Daniels, her son, including Rear Admirals Roberts, Griffin, David W. Taylor, Ralph Earle and Andrew T. Long and Brigadier General Logan Feiland.

POLISH SOLDIER TRAIN WAS LOST IN GERMANY

(Associated Press Telegram) Coblenz, Thursday, April 17.—The first train of Polish troops being sent to Poland became "lost" soon after entering occupied districts of Germany. The train pulled into Trèves late on Wednesday and because of the misunderstanding of orders on the part of the German railroad men, it was sent to Cologne instead of Coblenz.

Allied officers soon straightened out the misunderstanding and the train was brought to this city. Officers on duty at the station here reported the discipline on board the train was excellent.

LEADS YANKES IN NORTHERN RUSSIA

Maj. Gen. Graves.

Major General Graves is the man who is leading the American troops in the Russian wilds around Archangel where they are battling the Bolsheviki forces. Graves is dressed in the winter garb worn by the Yanks with the exception that he has, not the heavy boots on.

112TH TRAIN MEN GET DISCHARGES

More Than 500 Are Released From Service at Camp Sherman At Noon Friday.

Camp Sherman, Chillicothe, April 18.—Eleven hundred and fifty nine soldiers were dismissed from military service at Camp Sherman at noon today and left for their homes shortly thereafter.

Thirty two of the men were from Cincinnati, 32 from Cleveland, 42 from Columbus, 22 from Canton, 18 from Akron, 12 from Dayton, 7 from Toledo, 41 from Springfield, 18 from Youngstown, 33 from Cambridge, 13 from Mansfield, 9 from Lima, 7 from Steubenville, 48 from Marietta, 17 from Ashland, 9 from Zanesville and 15 from Fairport.

Sixty four soldiers were discharged from the headquarters detachment of the 112th Ammunition train, eleven from the medical detachment, 53 from Company A, 61 from E, 44 from C, 25 from D, 30 from F, 12 from G, 72 from G, 11 from the 112th ammunition train. Fifteen were discharged from the medical detachment of the train and the remainder of those freed today were from the transport brigade and the convalescent centers.

Thousands of soldiers have been ordered into the local camp for demobilization. Sixty nine have been ordered here from the 101st Sanitary train, 46 from the 102nd machine gun battalion, 38 from the 103rd machine gun battalion, 71 from the 144th machine gun battalion, 191 from the 158th infantry, 59 from the 141st field artillery, one from base hospital No. 41, 39 from the Fifth army corps headquarters troops, 64 from field hospital No. 335, 75 from the 91st division, 92 from the 347th machine gun battalion, 34 from base hospital number 42, 35 from the 113th transport brigade, 12 from the 114th trench mortar battery and 53 from the Second trench mortar battery. All of the soldiers are now en route here from overseas, most of them to land in New York today and tomorrow, to be sent here as quickly as possible.

FEW UNEMPLOYED WANT FARM JOBS

Surplus of Labor Over Country Does Not Help Farmers Who Need Men Badly.

Washington, April 18.—Despite the surplus of labor reported in many sections of the country, efforts of the United States employment service to secure labor for work on the farms has been hindered by the fact that the largest number of unemployed men, as shown by the department of labor, are in the cities. The statement says:

Telegraphic reports received by the employment service for the week ending April 12, from 53 cities, indicate an improvement in unemployment conditions. Reports from these cities show 36 having a surplus of labor in representative industries aggregating 97,900, as compared to a surplus over 100,000 a week of 122,000. Seven cities show a shortage aggregating 7750, or 500 less than the previous week; while 16 show an equality of labor supply and demand. Of the 36 cities reporting surpluses, says the statement, 14 showed decreases and none show a material increase.

Summarizing conditions by states and sections, the statement says:

Youngstown, O., reports 12,000, which is the largest report of unemployment in the state. Figures from Cleveland, which have heretofore shown the largest number of unemployed, were not received. Other cities in Ohio all report labor surpluses, but industrial relations good.

FUTURE OF FIUME WILL BE DECIDED BY ENVOYS SOON

Italian Premier Wants To Make Report To Parliament.

MAY EXTEND TIME IN WHICH FOE DELEGATES MUST SIGN

Will Permit Delegates to Ask Questions But Not Discuss Terms.

(Associated Press Telegram) Conflicting claims to the city of Fiume and the Dalmatian coast which have been laid before the peace conference in Paris by Italy and Jugo-Slavia, probably will be brought to a decision soon, if efforts to be exerted by the Italian delegation bear fruit.

This controversy—one of the most troublesome to be considered by the conference—has aroused public sentiment in Italy and when Italian parliament meets April 24, it is probable Premier Orlando will be asked for a report on the subject. Hence, he is said especially to desire a settlement before that date.

Conversations on the Adriatic problem have been going on in Paris for some time, but it is indicated that a settlement has not as yet been reached. According to present plans the allies terms of peace may not be laid before the Germans before Saturday of next week, and it may not be until the following Monday that the enemy delegates learn the details of the treaty that they will be asked to sign. This will delay proceedings to some extent, it is believed, and it is not expected that the German delegation can go to Weimar, receive instructions and return to Paris before May 8.

According to plans formulated at the conference, the German delegates will be permitted to ask questions and discuss points, but nothing approaching a discussion of the terms will be permitted. Only President Wilson and these allied premiers will be present when the terms are presented to the Germans. It is expected the League of Nations will play the role of honor in the terms to be presented.

Japan will bring before the council of four on Saturday the subject of Kiaoo Chau, the German fortress in the Far East, and it is expected that a decision will be reached between the council of four and the committee in charge of sending supplies to the Russians indicate that conditions in Russia are critical.

Libau has been seized by German and Baltic-German troops, according to advices received at Copenhagen. The Lettish provisional government has been ousted according to the report and some of the ministers imprisoned. A British mission is at Libau and British warships are in the harbor and it may be the reason for the interruption, but German government and Bavarian soviet troops have been fighting at Munich for the last few days and it is believed that one party or the other cut the telegraph lines.

Telegraphic communication between Berlin and Munich has been severed and Bamberg, Bavaria, also is cut off from the German capital. Dispatches do not give the reason for the interruption, but German government and Bavarian soviet troops have been fighting at Munich for the last few days and it is believed that one party or the other cut the telegraph lines.

LAST OF 332ND REGT. ARRIVES

Steamer From Marseilles Brings 700 Men of Ohio Troops Who Fought In Italy.

(Associated Press Telegram) New York, April 18.—With the arrival on the steamship Dante Alighieri from Marseilles today of 28 officers and 687 men of the 332nd regiment of infantry, 83rd division of national army troops from Ohio and Western Pennsylvania, the entire personnel of that infantry organization, which fought with the Italians against Austria has been landed and sent to training camps around New York, preparatory to being paraded here Monday and later sent to camps for demobilization.

The steamship brought a total of 2,098 troops.

The units of the 332nd on board included a detachment of field and staff headquarters, machine gun company, supply company and companies H and L. Other units on the vessel include the balance of base hospital 162, consisting of 29 officers and 191 men, casual companies from Ohio and scattered white and colored casuals.

The steamship Osceola arrived here from Bordeaux with 1,556 troops, the majority consisting of the 29th, 30th, 31st, 36th and 45th balloon companies. Two officers and 72 men were convalescing from illness or wounds.

The hospital ship Mercy from St. Nazaire, brought ten officers and 22 men who have been sick or wounded. The majority of these came home bed ridden.

(Associated Press Telegram) St. Johns, N. F., April 18.—A driving snow storm which had covered the ground with a six inch mantle and was still in progress at midnoon, effectively put a stop today to activities of the aviators waiting here for a favorable opportunity to attempt a trans-Atlantic flight.

IMPORTANT LAWS AWAIT ACTION BY OHIO LEGISLATURE

Tax Questions and Dry Enforcement Are Left Unfinished.

ASSEMBLY TAKES RECESS UNTIL MONDAY, MAY 5

Only 150 of 713 Bills Are Passed and Half Approved.

(Associated Press Telegram) Columbus, April 18.—The Ohio legislature recessed last midnight until Monday, May 5, when it will return to the capital to complete its work. Upon its return the assemblymen will be confronted with uncompleted taxation and prohibition legislation, the usual appropriation and finance bills and many other important measures still pending.

Up to the time of its recess, the general assembly had been in session three and one-half months and had passed 150 of the 713 bills introduced. The number of bills passed was considerably less than was passed by the two previous assemblies.

Of the 150 measures enacted only about 75 have been approved by Governor Cox. Three have become laws without the governor's approval, and four have been vetoed, one of which was passed over the governor's veto. A number of bills are still awaiting the governor's approval or disapproval. Among the most important bills passed and now awaiting action by the governor are the prohibition enforcement measures and the tax bill to grant temporary financial relief to cities and school districts by authorizing levies in excess of the Smith 1 per cent law for a period of five years, in order to pay off deficits in operating expenses of these taxing districts.

The prohibition enforcement measures cannot become laws for 90 days, even if approved by the governor, because of the failure to pass them as emergency acts. This makes them subject to a referendum and the Ohio Home Rule Association has announced that a petition will be filed with the secretary of state to submit them to a vote of the people.

As the measures cannot possibly become effective until after statewide constitutional prohibition goes into effect, May 27, dry leaders have announced that further emergency prohibition enforcement legislation, already introduced, will be brought to a vote on May 7, after the assembly adjourns. The Home Association has simply amended the criminal code, making it apply to prohibition. The wets have announced that they will fight the bills.

It is said the taxation relief bill may be vetoed by Governor Cox because of the prohibition question. If the measure is vetoed, it is said an attempt will be made to pass the bill over the governor's veto after the recess. Passage of the Fouts highway bill, which also contains provisions which permit levies in excess of the Smith law, is being held up by the senate until Governor Cox acts on the relief bill.

BOLSHEVISTS TRY HAND IN VIENNA

Mob Storms Parliament Building But Is Dispersed by Troops—Few Are Wounded.

(Associated Press Telegram) Vienna, Thursday, April 17.—Bolshevik sympathizers this morning attempted to storm the Austrian parliament building but were soon dispersed with a few wounded. The city generally is quiet. The attempt caused no special excitement in the city. It was the first Bolshevik outbreak here since last November.

SOLDIERS EXEMPT FROM AMUSEMENT TAXES

(Associated Press Telegram) Washington, April 18.—Regulations governing collection of the tax on admissions soon to be issued by the bureau of internal revenue, define the four classes which are exempt from the tax. They are children under 12 years of age, bona fide employees of the federal government, municipal officers on official business and soldiers or sailors in uniform. All other persons are subject to the tax, which is one cent for each ten cents of fraction thereof, of the price of admission.

If a ticket sold to a soldier or sailor \$2 a ticket for \$1 the tax is ten cents \$2 \$1, not twenty cents on the regular price. Admissions by passes are subject to the tax. If the pass entitles the holder to the price of the ticket, he must pay the tax. The dramatic critic who occupies a \$2 orchestra chair must pay 20 cents.

151 STEAMERS TAKE FOOD TO EUROPEANS

(Associated Press Telegram) Washington, April 18.—Statistics made public today by the United States shipping board show the board now has 151 steamers representing 550,000 deadweight tonnage engaged in carrying food to the starving nations of Europe.

Best of the emergency fleet, a corporation and originally designed as a weapon to defeat German's submarine campaign, says the statement, the ships now are serving as a great "mercy fleet," feeding friends and foes alike. Regular wars are being made between Atlantic ports and ports on the North sea, the Mediterranean and the Adriatic. Each ship carries a capacity of flour, beans, grain, beef and other supplies.

BOLSHEVIKI ACTIVE IN UKRAINE

1.—A Russian wireless to London states the soviet troops have driven the Rumanians a general retreat in Bessarabia from the line of Kamienetz-Molloy along the Dniester, in Podolia.

2.—Further north, in western Ukraine, General Petlura's forces have been driven from the line of Kamienetz-Proskurov-Shepetovke.

3.—Allied troops recently withdrawn from Odessa under pressure of Lenin-Trotsky forces are reported to be on way to reinforce Rumanians on the Dniester river front.

LOAN SPEAKERS INVADE NEWARK FACTORIES TO BOOST BOND BUYING

Speakers Assigned to Industrial Plants Tonight, Saturday and Monday—Musicians Will Help With Entertainment at Loan Dinner.

A campaign of oratory will be carried into the industrial plants of Newark in connection with the Victory loan drive. Arrangements have been made for speakers in 16 Newark factories, beginning Monday.

Speakers will be assigned by the Liberty loan committee for the various plants and the full details of the loan will be presented to employees. The advantages of the loan as an investment, its tax-free features, and the liberal purchase plan which permits the buyer to make easy payments between now and next November, will be called to the attention of the workers and they will be admonished that the patriotic duty great now as it was to support the loans to support the Victory loan is just as floated while the active fighting was going on.

Meetings will be held tonight in the following factories:

Simpson Foundry company.
Licking Laundry company.
American Bottle company.

Saturday—Newark Furniture company.
Newark Stamping & Foundry company.

Monday—Sylvan-Beggs company.
Pharis Tire & Rubber company.

Even the music business will contribute their notes into Victory liberty bonds.

The Saxophone band, a recent organization, headed by C. L. Gamble, will play for the bond salesmen at the big "roundup" meeting to be held Friday night at the regular place of assembly, Masonic temple.

This also is a musical unit rather new to the Newark public, but it is composed of practical musicians, trained to concert singing by G. W. Klopff.

"Interest in the new loan is growing apace," it was announced at the Liberty loan headquarters today. "The average man knows all about it now and is ready to act. There is no spur like patriotism which during the days of the great war held the absorbed interest and attention of all citizens. Now by the proceedings at the peace conference, the 'finis' is being written, the boys are coming home, while we for whom they fought so victoriously are doing the last act."

FIRST CASTINGS FOR NEW FURNACE

Newark Stamping and Foundry Company Begins Manufacture of New Product.

The Newark Stamping and Foundry company has resumed operation after the fourth department after making extensive repairs. The first castings for the new furnaces were made yesterday, and the company will rush the output of the famous May-Pfeiffer furnaces. The company will also rush the completion of the new building in order to take care of the growing demand for this furnace, which at the present time is very large.

Representatives are already on the road, and orders and inquiries are coming in every day. The company is more than pleased with the present outlook. Newark is being congratulated on acquiring an industry whose product has gained a wonderful reputation in the past 29 years it has been on the market.

The hose clamp department is busy, and to make more room, the company's office has been moved into separate and larger quarters at the corner of St. Clair and Stanbury streets.

The Newark Stamping and Foundry company has been steadily and surely growing, and in but a short time the North End will have an industry which will be a surprise to many people in Newark.

PRES. WILSON GRANTS AUDIENCE TO IRISH FRIENDS

Delegates Sent By American-Irish Societies Present Pleas

GEN. FOCH DRAFTS COURSE TO FOLLOW IF HUNS BALK

Blockade and Ban on Food Shipments May Be Penalty

(Associated Press Telegram) Paris, April 18.—Frank P. Walsh, former chairman of the National War Labor board, ex-Governor Edward F. Dunne, of Illinois and Michael J. Ryan, of Philadelphia, the delegation sent by Irish societies in America to plead the cause of Ireland before the peace conference had a long conference at the Paris "white house" this morning.

The conference was an outgrowth of the interview Mr. Walsh had yesterday with President Wilson.

The American delegation, to the peace conference has up to this time refused to receive Sean O'Connell and George G. Duffy, the delegates of the Irish provisional government here.

When ex-Governor Dunne and his associates reached Paris April 11 they were met at the station by Messrs. O'Connell and Duffy who told the Americans that the great powers would refuse to hear and receive them. The American delegates, however, were not deterred, it was added, and said they would ask President Wilson to grant the man and the cause.

Military experts under the direction of Marshal Foch, have been charged with the drafting of a report on what should be done in the event that Germany refuses to sign the peace treaty. It is indicated that the methods of coercion which the allies would adopt may include the occupation of more German territory, the blockade of enemy ports and the discontinuance of the despatch of food supplies to Germany.

With the return of David Lloyd George, the British premier from his visit home for his house of commons address the Council of Four, comprising the British, French, Italian, American and President Wilson resumed its deliberations today. The "Big Four" met in the "Paris White House."

AKRON LUMBER CO. SUFFERS FIRE LOSS

Akron, April 18.—Fire in the Akron Lumber company yards here early today resulted in an estimated property loss of \$100,000 and the death of one man.

Charles Jones, night watchman of the yards for the past ten years, is missing and police and firemen are sure that his life was lost in the blaze.

One of the officers said that he believed the fire was the work of an incendiary. Police have a man under suspicion, who will be arrested when found.

CRIME WENT IN TOLEDO.
Toledo, April 18.—To check Toledo's crime wave, during which eight persons have been murdered or met violent deaths within two weeks, Mayor Schreiner yesterday called a conference at which he warned 263 policemen that order must be restored in the city. The conference started shortly after the police had been informed of 12 burglaries last night in one section or Toledo. The mayor indicated that the police department was in a "rut" from which it is imperative that it emerge.

VORWAERTS SAYS HUNS MUST SIGN

Warns Nation of Grave Danger If Peace Envoys Refuse Terms Offered By Allies.

(Associated Press Telegram) Berlin, Thursday, April 17.—In a strikingly sober article written by Edward Bernstein, the Vorwaerts warns the German nation of the dangers attendant upon a refusal to sign the terms of peace, and declares the world will not absolve former Emperor William and his advisers from responsibility for all the misery of the war.

The article points out the enormous damage done to French territory, and says:

"Everyone acquainted with the facts knows that the allies demand for the delivery of coal for a specified period in return upon economic necessities, although a legitimate objection can be made to the demand for pledging the output of the entire Saar district. In any case we cannot save the Saar district for Germany by threats."

Photographs prove Gen. Blanquets death.

Photographs of the head of General Aureliano Blanquet, reports of whose death on Tuesday in a skirmish in the state of Vera Cruz were received here yesterday, arrived here last night and were positively identified as that of the former federal general.

STRAIGHT FROM GERMANY
An advertisement originated and produced
for the Victory Liberty Loan by members of
the American Expeditionary Force.

For some of us
the war
will never
be over

MAYBE you'll be going to the
country in a few weeks
to see the green of the
new leaves, and maybe, too, you've
got tickets for a corking show
tonight, where there will be
lights and colors and gay cos-
tumes and a happy crowd.

Well — perhaps the war is
over for you.

But for some of us——

Can **YOU** rest or work or
play or live until you have finished
the work we started—before the
light went out?

See it through! It's a big
American job. Unless you finish
it up in the old American way
the battles we fought over here
will have been won in vain.

BUYING CLOTHING.

A prominent manifestation of the war spirit is the purchase of new clothing. Most people lived pretty close on clothes during the war. The government urged everyone to buy little and let the mills manufacture goods for the soldiers. The people were exhorted to wear darned trousers and patched boots, which the majority of them had been doing anyway. Some did it from patriotism, others from thrift, many more because they didn't have the money.

Usually in this country people are pretty well dressed and under normal conditions they look neat and well kept up. Badly worn clothes detract from a person's self respect and confidence, and work against his success.

So now people feel the reaction from war conditions and are buying clothes. Women reveal in pretty styles with a good deal of color. If conducted with judgment and sensible economy, it is a natural rebound from the depression of war.

Prices are high, but it is not good judgment to buy cheap goods. A few dollars added means that substantial material has been substituted for rejects and defective stuff. And even in a time of high prices, there are differences between the value you get in different places.

Some merchants are energetic, pushing, always studying out the best opportunities, while others follow rats. The last kind think they can attract attention simply by hanging up stuff in show windows. The wide awake dealer, who is never satisfied until he has run the best bargains for his trade, is the one who advertises. A study of his notices in the columns of the Advocate will show what he is to.

TREE PLANTED AVENUES.

Among the tree planting movements of this spring is one represented by a bill now before the California legislature, said to be attracting general support over the state. The bill proposes to give country boards of forestry the right to plant trees along the highways where such are needed, and charge cost to shippers. The state

A REAL IRON TONIC

Like Peptonin May Be Just What You Need This Spring.
Probably nine people out of ten have lost or are losing their grip on health in these trying months of awful epidemics, exposure to damp, changeable weather, and association with sick people in overcrowded homes.
Depleted blood, loss of the red corpuscles, shattered nerves, loss of appetite, dull, dozy feelings in the head, irritability, all loudly call for the real tonic strength and nourishment that Peptonin will give you. It is a powerful corrective of anemia, tendency, paleness, languor, nerve exhaustion.
Peptonin restores the red corpuscles to the blood and gives a natural vigor and snap that keeps up courage, makes you cheery and helpful to your family and friends, and contributes wonderfully to the health of all. Remember this one thing—of all Peptonin—true—Peptonin is a real iron tonic—Adv.

would furnish the trees grown at public nurseries.
While tax payers are groaning over public expenses, the added cost of a proposition like this would not be appreciable. Trees can be grown in great quantities at small expense. The principal cost is the labor, and a few men can set out a lot of trees in a day. The wood produced would pay for the expense.
After the trees are grown no one would ever want to cut any of them, except where they were too thick. They will add in value to every piece of property along which they are set. Some proposition of this kind should be undertaken in every state.

Some of the motorists who tear down through the town at 30 miles an hour, are the same ones who complain because the kiddies ride their little velocipedes on the sidewalk.

There is a general feeling among the men of Newark that their wives will be tremendously benefitted this summer by taking a lot of exercise in the garden.

In housecleaning seasons after this spring, many men can now see how they will be rather comfortable to take refuge in the cellar.

LOW SUMMER TOURIST RATES.

(Houston, Tex., Post.)
Those who have been planning to remain at home this summer because of the high rate on the railroads may now change their plans and get ready for that annual vacation trip they were accustomed to take before the war. It has been decreed by the railway administration that such rates may be resumed and that the seaside, the lakes, the mountains—the favorite vacation of the country everywhere—are to welcome their visitors again.
This is decidedly the best news the federal railway administration has handed out to the public since it took over the roads from their private owners, and it comes in the form of an announcement that low summer rates are to be put into effect soon. The summer tourists will be able to travel again for just what it cost before the war.

The resumption of the summer vacation rates is bound to have a good effect upon the country as a whole. In the first place, it is a gratifying indication that we are getting back to normal, and it will have a psychological effect, in that the mere knowledge that vacations are available again, will strengthen faith in the times, afford a feeling of relaxation from the strain under which the majority of the people have been working for two years. It will mean more than the few dollars saved to the individual who makes such a trip, while it will mean that millions of the people will actually take a much needed rest, will visit new scenes and renew themselves. Americans are fond of travel, and because of that trait they are least provincial people of the world. In some European countries even the well-to-do travel little. People in the cities of some of those countries rarely get very far from home. Former Ambassador Gerard pointed out that the Germans did not travel much. It is not improbable that if the Germans had known more about geography, especially the geography of America, they would not have invited the United States into the war.

The railroad administration is going to reap a golden harvest from the policy of resuming the low summer fares, because it will start a flood of travel after two years of restraint at a time when traffic is at a low ebb, and much needed revenue will be brought into the roads while railway labor forces will be kept employed.

EXAMINING THE DOLLAR.

(Chicago Journal.)
All governments have enough to think about these days, but it is just as well to keep them reminded of something which deserves their best attention when they can find time for it.
Prices of most goods are coming down a little. They are still mountainous high, but as a rule, they are a bit less Himalayan than they were six months ago. People rejoice at the decline, and with some reason—but have they stopped to think of this?
If prices drop 50 per cent, war debts will be raised 100 per cent. Those debts, at the last, are paid in commodities, for people must sell commodities to get money for the taxes with which the bonds are redeemed. If prices go down one half, it will take twice as much wheat, meat, leather, machinery, etc., to bring \$100, and obviously, a \$100 bond under such conditions will be worth twice as much as when it was bought.
Of course, there can be no such drastic change as the one used for illustration, and it may be that no governmental action such as these changes are seem probable. This paper does not pretend to know. But it does know that a considerable group of economic students led by Irving Fisher, of Yale, believe they have worked out a plan to standardize the dollar, that is, to keep its purchasing power always approximately the same, and such a claim, made by reasonable men, is well worth government investigation.

25 Years Ago

Miss Nellie Montgomery returned to her home today after a visit with friends in the city.
Born to Mr. and Mrs. F. J. Winters 24 South Sixth street, last night, a son. Funeral services over the remains of the late Mrs. Sarah Evans, who died in Chicago took place yesterday afternoon from the Howell residence on North Third street. The services were conducted by the Rev. John Montgomery of the First Presbyterian church.
Messrs. Chas. Dean, Henry Schwab, John Schwab, Chas. Anderson, William Voghtman and Chris. Kimmmerer will compose a fishing party that will leave Newark tomorrow morning for the Reservoir. They will stop at Rock-bridge's place. They have been laying in "bait" all afternoon.

15 YEARS AGO.

Mrs. E. S. Miller left for Zanesville this morning.
Samuel Avery of 112 Wilson street is suffering with an attack of rheumatism.
In the list of graduates at Ohio Medical University, at Columbus appears the name of Dr. Clark P. Hatch, who ranked high in the examination.
David P. Shrier from near Mt. Sterling was found dead in bed this morning.

It should be our pride to exhibit an example of one nation, at least, destitute of national antipathies, and exercising not merely the overt acts of hospitality, but those more rare and noble courtesies which spring from liberality of opinion. — Washington Irving.

He's always loafing round and I am surely at a loss. To clearly understand just why he always gets across.

Did You Know
That caviar is the roe of fish prepared with salt as an article of food? The eggs first used for this purpose were obtained from the sturgeon, but caviar is now made from the roe of the spoonbill, whitefish, carp and other species of fish. The roe is first placed on a coarse sieve and gently rubbed to free the eggs which drop into a tub underneath. Then a pound of salt is added for every twelve pounds of roe and the mixture is manipulated with the hands until a foam or slime forms on the surface. It is then allowed to stand for ten minutes when it is poured into a small-meshed sieve and drained for about an hour, when it is ready to be packed into tubs for shipment.

Let us do him all the honors and then he will come back and see the real United States. He sustains his reputation for strategy.

BOLSHEVISTS ON THE RUN.

(Cleveland Plain Dealer.)
The murder of Kurt Eisner was seized upon by the Bavarian Bolshevists as an opportunity to establish something resembling a soviet government in Munich. Eisner was not a Bolshevist, in fact, he repeatedly denounced bolshevism. He was, however, assassinated by a young nobleman, a zealot of the extreme reactionary type, and this was sufficient to turn the people of the Bavarian capital toward support of the extreme radicals.

The radical Munich government has never commanded the support of all sections of Bavaria, and now it is in danger of being driven forth from power altogether. The army, instead of upholding the "reds," has supported the moderate men of the Eber-Scheide-mann persuasion, and the moderate government has been re-established.
Bavaria was a poor field for bolshevism. The Bavarians are the most conservative of all Germans. Kurt Eisner himself, though opposed to bolshevism, was too radical for the Bavarians, as was indicated shortly before Eisner's death in the overwhelming defeat of his party in the general elections. At that time the electorate expressed a strong preference for the majority Socialists. The out-and-out reactionaries who are opposed to all forms of socialism and who are said to form a majority of the non-urban population must always be reckoned with in Bavaria. They are zealous propagandists, and are biding their time till an opportunity appears for a thorough counter revolution.
The overthrow of the Munich "reds" has been expected. It may be the first step toward the re-establishment of the old regime and the restoration of the Wittelsbachs, who, alone among the jobless German royalties, have never renounced their rights.

Spirit of the Press

The Brave Merchant Marine.
Admiral Sims struck a note that may well find echo in every American heart when he said: "Don't forget the men of the merchant marine who stood by us at all times and did their duty in every respect. If they had not done so the work of our Army and Navy would stand for but little." Just words and generously said! These were the men who suffered most from the ruthlessness of the Hun. They were the targets of the U-boats. They knew it, but they never faltered. "Braver men never went to sea!" says Admiral Sims, and he knows whereof he speaks. We cannot hale them into our streets to parade before us and receive collectively our plaudits and more than make the pity; but we may at least shout a loud "Amen!" to the words of the Admiral. Hats off to the men of the merchant marine! — Philadelphia Record.

The Victory Loan.
On the eve of the Fifth Liberty Loan campaign let us take counsel together. The war was won because the United States found the money not only to raise armies, expand the Navy, and make munitions, but to "stake" the Allies and feed their people. It was called the Victory Loan; it might well be called the Thanksgiving Loan, and the Honor Loan would be a name of significance. The alternative to failure to float the Victory Loan would be more taxation. How fatuous, and how a reproach that would be! It would never do to turn our backs on the Victory Loan. We could never look Uncle Sam in the face again. — New York Times.

THE WISDOM OF PETAINE.

(Pittsburgh Gazette Times.)
Marshal Petain of Verdun wishes to visit the United States. He sees in a hasty journey from east to west the opportunity for growth needed relaxation. But he knows that as soon as he sets foot on our soil he will have the work of a herd to perform. He will have to meet people, attend dinners and receptions and cover personally supervised minutiae among the American "highlights." It will wear him and he knows it. So he has decided to add a special war to this war, and he will come over to go through the mill of honored personages. Then later, he will slip over unharmed and, skillfully camouflaged, looking as little like a marshal of France as possible, see America in his own way.
The marshal is wise. One of the penalties of greatness in these latter years is the sacrifice of privacy. A hero must nearly always act out the part assigned him in the popular imagination. Only a glutton for entertainment could get lacking enjoyment out of the formal occasions of an arranged progress through a country. The tactful French recognized that when they left President Wilson alone after a few days of celebration in his honor, and we desecrated his second arrival in France was much less fatiguing than the first. In the case of a foreign celebrity coming to tour the United States his endurance would be tested all the way across and back; so we see wisdom in the decision of Petain. He will

Shall We Give "Our Little Brown Brothers" Their Independence?

Philippine independence is "almost in sight," President Wilson by letter assures the delegation of forty Filipinos who have come to this country to persuade the American people that the time has arrived for the birth of a Philippine Republic. And Secretary Baker, who read the President's letter to the delegation, added "I trust that the day is very close at hand."

While many newspapers predict that the Filipinos' request will be granted, there are others that are not in favor of the idea. The Boston Transcript, for instance, characterizes the attitude of the administration as "inviting rebellion in the Philippines," while the New York Tribune declares that "this is no time for experiment."

The leading article in this week's LITERARY DIGEST—April 19th—is an illuminating presentation of public opinion upon this problem. You will also find many other interesting articles in this number, among which are:

Help Finish the Job!

At sunrise on Monday, April 21st, America fires the first shot in the Victory Liberty Loan campaign and its reverberations will be heard throughout the length and breadth of the land. The enthusiastic response to former calls of the Government for money to conduct the war convinced Germany and the world that America was in deadly earnest, that our people were in this war to win and were determined to see the job through at whatever cost. Now that the war is won we must go just one step farther and furnish the money to pay the last instalment on the debt that has rolled up and to bring our boys back home safely and swiftly. And America will do it with a will—for never shall it be said that this country started anything that it couldn't finish. In the name of the thousands of our heroic dead, of the millions of our no less heroic fighters, many of them scarred and maimed for life, our Government now asks as the final act of the people to dig deep and *loan*—not *give*—it the money to pay the bills. This call then is to you—to every real American—to buy Victory Liberty Loan Bonds—and buy them to the utmost of your resources. *Help finish the job!*

AUDITORIUM.

A play destined to live forever in the hearts of those who see it is "The Heart of Humanity," which opened a 3 day engagement at the Auditorium theatre yesterday. No ordinary war play is this tremendous production conceived by the master mind of Allen Holubar. In fact, so skillfully is the war element handled that it is overshadowed completely by the charming romance which is the picture's main theme. Yet, scarcely secondary to this is the optimistic illumination it sheds on the great vital problem that touches on the duty owed by humanity to the children wrecked and orphaned by the war. The clarity of the titles is a delight, and this, coupled with the subtle handling of the plot, makes the production a masterpiece, for Allen Holubar, the director, knows the value of contrast and has used his knowledge with the highest degree of success. As Nanette, the character who depicts the glory accomplished by women in the war, Dorothy Phillips proves herself to be one of the screen's greatest players. Rarely have such superb heights been reached as the displays in her marvelous delineation of the role. The Pathe news as usual will be seen with this feature today and to morrow.

The Amazing Wife.

He came back from the dead. This gallant soldier, a hero killed in action on the fields of France. A sob will rise in your throat as you see his white-haired mother lift herself slowly from her chair—stare—pass her hands before her eyes—trot into his arms. His father clings to him like a child.

But what of his "wife"—the surviving young widow of a ruffian of the same name, who in desperation had represented herself as his widow? The Lieut. John Ashton who had come back thinking only to claim Claire Winston as his fiancée—wheels slowly to face this tremendous girl who has been accepted by his parents as his secret bride. Ciciely—what a pretty name, and Ciciely, what a pretty girl! But he steals himself against her as he thinks of the deception she had practiced on his mother.

Mary MacLaren as Ciciely, has one of the greatest roles of her career, and in "The Amazing Wife," which comes to the Auditorium Sunday she had achieved the finest of her many finest of her many fine pictures.

Do not fail to see it.
A comedy is also promised.

East Lynne With Variations.

The story of "East Lynne With Variations" is a delicious satire on the good old standby of our front seat in the gallery days. It's all there—the deserted mother with her child in her arms, followed all around by a fiendish wicked snow storm, the heroine lashed to the rails by the escoundrel villain, the young woman fastened to the buzz saw of a lumber mill and about to be reduced to mince-meat. And hie! The wicked villain with a mustache and cigarette—the noble hero and the persecuted heroine.

There are two drunks sitting in one of the boxes of the theatre, who get so excited that they insist upon helping out the action of the melodrammer. In the middle of the play, the head scene shifter gets jealous of his wife, who is the leading woman of the show, and drags her from the stage. Nothing, if not resourceful, Ben rushes down into the audience and kidnaps a beautiful young woman to play the leading woman's role. It will be shown at the Auditorium theatre Sunday and large business at that playhouse is expected.

Oh, Boy.

"Oh, Boy," the smartest and brightest musical comedy hit since the days of "Floradora" and the fourth of the series of New York Princess Theatre musical comedies which began with "Nobody Home" and was followed by "Very Good Eddie" is announced by F. Ray Comstock and William Elliott as the attraction at the Auditorium Theatre Tuesday evening, April 22nd.

Not in the past twenty years has any musical comedy scored the success achieved by "Oh, Boy."

"Oh, Boy" is of that intimate type of musical comedy in which the most close association and friendly spirit of appreciation between the players and the audience.

The book and lyrics are by Guy Bolton and P. G. Wodehouse and the music by Jerome Kern. The story deals with the adventures of an interesting group of people in a small suburban town. Jackie Sampson, an actress playing "Modesty" in the morality play "Experience," becomes involved in a fuss in a gay restaurant and during the trouble hits Constable Simms in the eye. She secured his pistol and in making a getaway climbs a fire escape that leads into the apartment of George Budd, a young college professor.

Young Budd has just been married to Lou Pfen Carter and they have determined, as the marriage was a secret one, that the bride shall go to the home of her parents for the night. It is just after the bride and groom

have left the apartment that the actress arrives.
Spats are to be placed on sale tomorrow at 10 a.m.

ALHAMBRA.

Tonight.

The Alhambra offers three big features, one being "Prizma," the supreme achievement—"Skyland," a fantasy of the Blackfoot Indian country, with its twilight journey to the land of the drifting clouds, with its colorful pictures of quaint costumes, weird dances and tribal sacrificial rites, carries a freshness and human attraction that are sure to please Ben Turpin, Charles Lynn, Marie Prevost, Tom Kennedy, Gene Rogers and Al McKinnon are seen in the laughable two-reel comedy "Hide and Seek, Detectives," a Paramount-Sennett comedy. Then Mae Marsh in the Goldwyn feature "Hidden Fires" makes it really the strongest program of the present season. In this Miss Marsh as Peggy Murray, a hotel newsstand girl, whose fancy is ever punning the name of the mother she

clever play in which she is seen in the vivacious role of a mad-cap society girl possessed with a mania for speeding. A two-reel comedy is also promised.

A Capital Comedy.

One of the best comedies seen in this city in many months is "Her First Mistake," produced by Mack Bennett for Paramount, which is to be shown at the Alhambra, Sunday. There are laughs galore in every scene and the acting of a couple of roosters, not to speak of Teddy, the dog, is perhaps the most amusing as well as amusing feature of the production. It is a capital comedy which provokes gales of laughter at every showing.

Woman Escapes Male Pursuers.

Only in rare instances can a woman win a man's love by posing as a coquette. Stepping into the shoes of a notorious woman is the sole means by which the heroine of "When Men Desire" can find her way back into her lover's arms. This William Fox production, in which Theda Bara is starring, opens Monday at the Alhambra theatre. Miss Bara plays the part of an innocent young woman who is kept a prisoner by jealous rivals. ture is said to abound in hair-braids, capotes and thrilling situations. A comedy is also promised.

LYRIC.

At the Lyric tonight the Hoosier Girls will have an entire change of program, producing for the first time here "Jack the Ripper," featuring Billy Clark in the black face part. This play is full of good clean comedy and the chorus will put on all new musical numbers.

Next week Harry LaRoane presents The LaRoane Stock company with their superior concert band presenting up to date comedies, dramas and classy vaudeville between the acts.

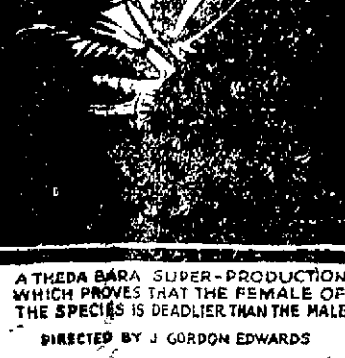

GEM.

"The Little White Savage," Carmel Meyers' latest comedy-drama, is built around a grand side-show life with a circus, and shows just how much or rather how little you can believe of the wondrous tales the frock-coated gent on the outside tells concerning the sensational attractions inside. Carmel Meyers is "the little white savage," and the owners of

the circus tell a tale about her capture that rivals the wildest dreams of Baron Munchausen and Sir Lancelot Clivellier. The situations are immense, and laughs are thicker than "cocoons" in front line trenches, and the subtleties are alone worth the price of admission. "The Little White Savage" is found in the bed of the village minister and the saintly trustees are the ones who discover her. What did they think? What did they do? How did the person alibi himself? You won't know unless you come to the Gem tonight.

A Splendid Suggestion.
"Editor Tribune—Without trespassing, allow me to suggest that while the gladness Easter is at hand we celebrate it in spirit this year by all giving something toward helping the Adams family to help themselves."

"At this time we honor Him who 'went about doing good,' and here is an opportunity to put in practice His Golden Rule. With what Manager Fenberg has on hand a purse of \$500 can easily be raised by Saturday night, and presented to the worthy, deserving mother for her Easter, and we shall all be happier for it."

"Let's get behind it, and every business place be a receiving station for contributions, large or small, to be turned over to Manager Fenberg for the Adams family for Sunday. Now, altogether! I am getting funds now!"

"Howard N. Stevens."

THE fund now amounts to \$250.

\$290.00

If Mr. Stevens' suggestion bears fruit and the \$500 mark is reached, it surely will be a great EASTER PRESENT for this poor mother and her nine fatherless children.

HURST?

She's the highest priced short story writer in the world. She has criticized "THE HEART OF HUMANITY," starring Dorothy Phillips in Allen Holubar's super-production. READ what Miss Hurst says:

"I saw 'The Heart of Humanity' last night and I want to give you a piece of my mind about it. First, I think it is the finest achievement that the screen has yielded up so far—also aside from the fine moving love story, I learned a vast amount about modern armament."

"There is a moment in that picture that is going to thrill down the spinal column of the world. I refer to the dog scene, one of the greatest photoplay moments I have ever enjoyed. Dorothy Phillips is more than sweetly charming; she is a rare combination of youth and deep emotionism and one of the really sincere artists of the screen. She and her splendid supporting cast, together with the big artistic direction and production, round out the picture into a masterpiece. CONGRATULATIONS!"

GARDNER'S SPEED GREATEST ASSET

Eastern Sport Writers Call
Him Fastest Worker In
Mat Game—Meets Bow-
ser Here.

That Paul Bowser anticipates one of the hardest matches of his wrestling career is indicated by the strenuous course of training which he is undergoing so that he may be in the best of condition when he steps on the mat next Monday evening at the Auditorium theatre, to try his chances with Punky Gardner of Rochester, N. Y.

Bowser is taking on all the boys that he can secure for workouts at his gym in Fourth street. The place is crowded nightly and there is plenty of excitement as Bowser takes them in one, two three order. His road work is hardening him for the contest for it is nothing for him to do a six mile stretch before breakfast as an appetizer. Bowser realizes that the fans are pinning their faith to him and he will have an opponent with a record almost equal to his own, for Gardner has met some of the top-notchers of the game and has many matches to his credit.

It will be a treat to watch Gardner work for his style of wrestling has never been seen in the city. Fast in action he goes after his adversary from the start and hold after hold is tried by the athlete sometimes dubbed the "speed demon" by the sport writers of the east. That he is one of the best mat generals in the country cannot be denied by any one who has witnessed his work and his desire to meet the champion middle weight wrestler of the country is at last to be realized for Gardner has been wanting to take on Bowser for some time.

The preliminaries will be in keeping with the high class exhibitions staged the past season. Mat seats can be secured at the Bowser gym and as they are going fast fans desiring same had better call at once. Reserved seats at the Auditorium box office.

GERMAN AGENT APPLIES TORCH TO TRANSPORT

(Associated Press Telegram)
Boston, April 18.—A German agent, allowed on the transport Patricia, attempted to set fire to the vessel Wednesday night as it was nearing Boston with more than 2,000 American soldiers according to Frank W. Cavanaugh, of the 102nd field artillery, one of the officers on board.

BOLSHEVIKI AGENTS FLOCK TO HUNGARY

(Associated Press Telegram)
Vienna, Wednesday, April 16.—The spread of Bolsheviki propaganda, westward is being greatly favored by the laxity of frontier regulations the least guarded being those of Poland. Trains are arriving at Budapest and Vienna from the east carrying numbers of agents supplied with all sorts of false passports and false money.

The observation of the correspondent show that the best guarded frontier apparently is that of East Prussia, where the Bolsheviki are made to understand they are not welcome. Trains from Cracow into German Silesia and Bohemia, however, are filled with non-descript individuals from Russia whose papers are either not examined at all or are looked over most casually. Conditions are much the same as regards the trains entering Hungary by way of Ukraine and East Galicia.

The falsification of American passports is declared to be so common that the representative of the American diplomatic service here attached to the Spanish embassy, states that it would be available to increase the difficulties of fraud by requiring the applicant of thumb prints to all original United States passports, as it is easy, it is claimed, to substitute a photo graph and imitate the signature.

CHURCH TO PROVIDE SALOON SUBSTITUTE

(Associated Press Telegram)
New York, April 18.—A program of church extension work entailing an expenditure of \$20,000,000 and including among its proposed activities "a definite attempt to provide a real substitute for the saloon," as a social center has been adopted by the Episcopal church in America, according to an announcement published here yesterday on the authority of the church's federal boards.

Of the fund appropriated more than two-thirds will be devoted to undertakings in the home field, such as work among immigrants, social service and education. The balance will go to foreign mission expansion one of whose features will be an increase in the salaries of missionaries.

"DANDERINE" FOR FALLING HAIR

Stop dandruff and double beauty of your hair for few cents.

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine," at any drug store for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair stops coming out and you can't find any dandruff. Your hair appears soft, glossy and twice as thick and abundant. Try it. ADVT

HOW'S YOUR BLOOD?

Pimples and Eruptions Mean Bad Blood

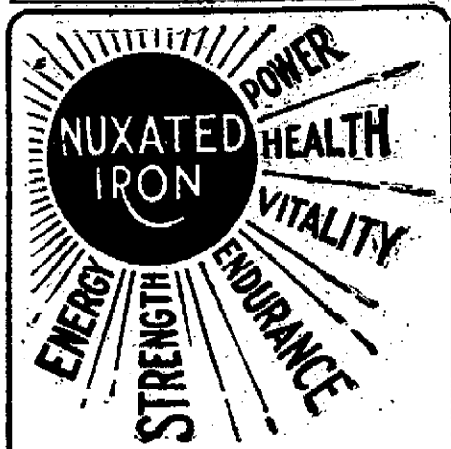

People who have impure or impoverished blood should be careful to take only a temperance remedy made of wild roots and herbs such as Dr. Pierce's Golden Medical Discovery is and has been for nearly 50 years. Ingredients printed on wrapper.

The first day you start to take this reliable medicine, impure germs and accumulations begin to separate in the blood and are then expelled through the eliminative organs.

In place of the impurities, the arteries and veins gradually get fresh vitalized blood and the action of this good blood on the skin means that pimples, boils, carbuncles, eczema, rash, acne and all skin blemishes will disappear. Then you must remember that when the blood is right, the liver, stomach, bowels and kidneys become healthy, active and vigorous and you will have no more trouble with indigestion, backache, headache.

Get Dr. Pierce's Golden Medical Discovery to-day at any medicine dealers, in tablet or liquid form, or send 10c for trial package to Dr. Pierce's Invalid Hotel, Buffalo, N. Y.

OAK HARBOR, Ohio—"I had a very good experience with 'Golden Medical Discovery.' I had been having boils all over my body; my blood was impoverished and in very poor condition. I took the 'Discovery' and it cleared up my blood and so purified it that I have never had any more boils. Dr. Pierce's Golden Medical Discovery is an excellent blood medicine and tonic to build up a run-down system and I am glad to recommend it as such."—LOWELL HARTWELL, P. O. Box 21.

Nuxated Iron increases strength and endurance of delicate, nervous, run-down people in two weeks' time in many instances it has been used and endorsed by such men as former United States Senator and Vice-Presidential Nominee, Charles A. Tamm; U. S. Commissioner of Immigration Hon. Anthony Caminetti; also United States Judge G. W. Atkinson of the Court of Claims of Washington, and others. Ask your doctor or druggist about it.

DARTING, PIERCING SCIATIC PAINS

Give way before the penetrating effects of Sloan's Liniment

So do those rheumatic twinges and the lumbago, the nerve-inflammation of neuritis, the wry neck, the joint wrench, the figment sprain, the muscle strain, and the throbbing bruise.

The ease of applying, the quickness of relief, the positive results, the cleanliness, and the economy of Sloan's Liniment make it universally preferred.

Mothers who value their own comfort and the welfare of their children, should never be without a box of Mother Gray's Sweetened Food for Children, for use throughout the year. They break up colds, relieve feverishness, constipation, teething troubles, headachings and stomach troubles. Used by mothers for over 30 years. THESE POWDERS GIVE SATISFACTION. All Drug Stores. RAILROADS IN EUROPE

French Engineers, It is Said, Are Thinking of Tunneling Straits of Gibraltar.

The French genius is never idle, whether in art, literature, trade or transportation.

French engineers announce four possible new direct and through transportation routes starting from Paris, says the Outlook. One is called "The Acropolis Express." The present Paris-Athens route runs across France and Italy to the port of Brindisi, thence by water to the port of Patras in Greece, and thence by rail to Athens. The new route would save little in actual running time, but would eliminate the delays in transshipments. It would follow the present route to Italy, whence it would veer due east to Trieste, and thence east and south through Croatia and Serbia.

The second route is between Paris and Constantinople, following the first to Belgrade, and thence over the old Berlin-Bagdad route to Constantinople.

Another new through route is to Odessa, the great Black sea port. This would start from Paris and Bordeaux and cross Italy, the Balkan states and southwestern Russia. This route would demand new trackage from Belgrade along the Danube about 120 miles.

But on the fourth proposition such an immense amount of railway construction, as well as of undersea tunneling, would be required as to make one query whether for very many years the scheme could ever become profitable. The plan is to save time between London and Paris on the one hand and Rio de Janeiro and Buenos Aires on the other. As the distance from the French port of Dakar in Senegal, on the West African coast, to the north Brazilian ports involves the shortest transatlantic span, French engineers propose to link Paris and Dakar by rail, tunneling the Straits of Gibraltar and building a line down the coasts of Morocco, Rio de Oro and Senegal; Spain's consent being assumed. If the English channel is ever tunneled, this route would thus save a considerable number of days (but would add to the cost) in the transit of passengers and goods from London and Paris to Rio de Janeiro and Buenos Aires.

WILL NEVER PLAY BASEBALL

Christy Mathewson Gives Reasons Why the French Are Not Likely to Take Up Game.

France, the country that went through the fighting of the biggest war in history without batting an eye, will never adopt baseball as a national pastime, because the game is "too rough." This was learned from no less an authority than Capt. Christopher Mathewson, who arrived at New York recently.

Although the Polts have bravely attempted a few games under American tutelage, "they're more afraid of a hard-hit liner or grounder than they are of a German 77," according to Mathewson. "Their infield work is rotten," said Christy. "They can run bases all right, but they get little opportunity, because they can't bat. And I don't believe you could pick up a first-class catcher in all of France. Every time a Frenchman gets behind a bat he wants to retreat about ten paces, erect a barb-wire entanglement, dig himself a dugout and crawl into it."

"No, the Frenchman will never take to baseball in a big way. He prefers something gentle, such as football and dueling."

The Retort.

He was regaling a breathless crowd with a veracious story of a shipwreck, and how he and his mates had escaped on a raft, and after many exciting adventures had landed on a desert island.

"And the beach of that there island," he said impressively, "was red with lobsters."

"But," interposed the objectionable person who glories in spoiling a good story, "that won't do, Jack. Lobsters ain't red before they're boiled."

Jack was silent for a moment; it seemed that he had at last met his Waterloo. But soon a smile lit up his face.

"But who didn't know that?" he asked, scathingly of his persecutor. "This ere was a volcanic island, and, of course, the waters was all billing 'ot'!"—London Mail.

At Eighty-One Takes Up Desert Land.

At the age of eighty-one years, Mrs. Cornelia Cocke has proved up on a section of land under the Desert Land Act, and is now the owner of the property, located eight miles east of Mojave, says Los Angeles Dispatch.

The government demands much development work on these desert lands, and Mrs. Cocke showed that in the four years she resided on the "claim" she did much of the necessary work herself. In addition to winning a home the aged homesteader declares that she has improved her health by life on the desert.

Hat Making in China.

The manufacture of hats in China, according to a consular report, is certain to become an important industry. With the cutting of the quene foreign hats displaced the native styles. More than 2,000,000 rush hats are exported each year from Ningpo to the United States. A hat of good quality is being made in Szechwan of palm leaf fiber. The extensive manufacture of straw braid in Shanghai will lead to the manufacture of straw hats in that section.

We don't hear much talk about adding to the gaiety of nations, most of them being otherwise occupied.

Differing Fears.

When it is a man getting a set of false teeth, he is afraid he is not going to be able to eat with them; if it is a woman, she is afraid she will not be able to talk.

Beware of Compromises.

One temptation in making difficult decisions is to compromise. You aren't sure which way is the best, you seek to combine the advantages of both, and many a time merely combine all the disadvantages. To be sure, there are times when a compromise is the wisest course, but there are just as many times when it is cowardice and weakness. How can one tell which times are which? Well, that is simply another decision for you.

TAXES ABSORB ALL OF INCOME

British Nobleman Owning U. S. Property Hard Hit By Both Governments' Tax Laws.

(ASSOCIATED PRESS TELEGRAM)
London, April 18.—That a man should pay more money for income tax than the total of his income seems the limit of taxation. This is said to be the plight of a well-known British peer who was born an American and became naturalized in England some years ago. His property is in the United States. Being a British subject he is compelled by British law to pay income tax on all his revenues from all sources and the American law compels payment of income tax on all his income from American property. Being a multi-millionaire, his income is subject to heavy super tax by both governments and the two taxes are said to amount to more than one hundred per cent of the income. Thus the unfortunate nobleman must pay out all of his receipts and dip into his capital to defray current taxes and after defraying this first charge, use more of the capital for living expenses. The double income tax of the war period has hit well to do Americans who live in Great Britain very hard. In former days very few of the large colony of American business men living in Britain ever gave up their American citizenship. But many of them have found this draft on their patriotism too heavy and have reluctantly changed their allegiance and taken out naturalization papers. As for those Americans who lived here because they found the social atmosphere of England more congenial and the scope for spending money on pleasures greater than at home, most of them seem to have disappeared.

FOUR PERSONS KILLED IN SOCIALIST CLASH

(ASSOCIATED PRESS TELEGRAM)
Milan, Italy, April 18.—Four persons were killed and several wounded during disorders here Wednesday incident to clashes between socialist and anti-socialist groups. The offices of the newspaper Avanti were wrecked by the rioters. The workers in Milan, Bologna, Turin and Genoa, the principal manufacturing cities of northern Italy began a twenty-four hour strike today.

THROUGH MAIL TRIES TO SECURE \$25000

(ASSOCIATED PRESS TELEGRAM)
Covington, Ky., April 18.—Frederick Gondorf, alias Fred Grant of New York, John Connel and William Silva, both of Newport, Ky., recently convicted of using the mails in an attempt to defraud Frank Kaiser of West Hoboken, N. J., out of \$25,000 were today sentenced to five years in the federal penitentiary at Atlanta, Ga., and each were fined \$2,000. Attorneys for the men stated that a motion for an appeal would be made within two weeks.

GERMAN TRANSPORT BRINGS HOME TROOPS

(ASSOCIATED PRESS TELEGRAM)
New York, April 18.—The first ship to arrive in America of the German tonnage turned over to the associated powers under the armistice terms entered the port yesterday. The Kaiserine, German liner, bringing home 2,219 American troops. The majority of these are of the 33rd division, former National Guard of Louisiana, Mississippi and Arkansas. They returned in charge of Brigadier General J. A. Hayes, commanding the 64th field artillery brigade, whose headquarters, 12 officers and 14 men returned, assigned to Camp Beauregard. The 141st field artillery complete of the 33rd division and 1,254 men will be distributed among Camp Beauregard, Shelby, Pike, Bowie, Travis, Taylor and Sherman.

FIREMEN WILL QUIT UNLESS GIVEN INCREASE

(ASSOCIATED PRESS TELEGRAM)
Toledo, April 18.—Indications are that all firemen in Toledo will quit their jobs unless the city within the next few days grants their demand for a raise of \$2 a month. The demands were made some months ago, but the city argued that an increase would have to await action by the legislature increasing the financial resources of cities. Firemen declare they are being deceived and will not wait much longer.

MAYO TO HEAD ALL SEA FORCES

Navy Bureau Works Out Plan For Uncle Sam's Warships.

(Associated Press Telegram) Washington, April 18.—Designation of Admiral Henry T. Mayo as commander in chief of the United States fleet, it was disclosed yesterday, was part of a plan for unity of command in the navy worked out by the bureau of operations on the basis of experience in the world war. The complete plan, however, has not been approved by Secretary Daniels.

Under the present system three separate commands were maintained for the Atlantic, the Pacific and the Asiatic fleets, with each fleet officer having equal rank. The commander in chief of the Asiatic fleet now is a rear admiral and when Admiral Caperton relinquishes command of the Pacific fleet on April 30, Admiral Mayo will be the ranking fleet officer.

Many naval officers believe that even with the fleets widely separated they should be under a single directing head, who naturally would be the commander of the Atlantic fleet. With the return of the American naval forces from the war zone, complete reorganization of the Atlantic fleet was worked out with eight divisions of battleships, a cruiser and a destroyer fleet, a submarine detachment and a fleet train.

After the troops are home, some of the older battleships will be put in reserve, but the others and the cruiser force will join Admiral Mayo's ships, giving him a fleet of several hundred vessels—the greatest ever gathered under the American flag.

SALVATION ARMY PLANS FIGHT AGAINST POVERTY

(Associated Press Telegram) New York City, April 18.—To the more than 2,000,000 sturdy Americans under arms in France the signing of the armistice means an end to hardship and a speedy return to "the states" and civilian life. To the members of the Salvation army who shared their hardships and dangers it was really a declaration of war for they were now returning to the United States to take up on a broader scale than ever their hand to hand struggles with poverty in the No Man's Land of the Slums.

The valiant little bands of men and women who for four years labored for the comfort of the fighting men and aided in building up and maintaining their morale are returning as quietly as they slipped away at the beginning of the war and with the same matter of fact earnestness that marked their war welfare work they are again picking up the threads of their work in the dark places.

The great concerted drive for better children, better men and better women has been carefully planned. This renewal of initiatives is not a hit or miss effort. Nor has the Salvation army work among the poor ever been conducted on the basis. The organization emerges from the dark clouds of the great world conflict stronger than ever before. It has found its real

strength. After sixty long years of preparation—training for the great day—it has swung into its full stride. Although the program is national in its scope the basis of calculation has been the individual locality. The "army" knows exactly what it intends to do and the cost of this work has been carefully considered. The result of this close calculation is the appeal for a \$12,000,000 Home Service Fund which will be made during the week of May 19-26.

O. W. U. ALUMNI DRINK SULPHUR WATER TOAST

Delaware, April 18.—Old "grads" will in truth partake of the real article when they sing, "Well Drink One Toast from the Sulphur Springs to 'Wesleyan,'" at the Ohio Wesleyan alumni banquet in Washington, D. C., April 22, when officials of the Ohio Wesleyan Alumni association of Washington sent for water from the Old Sulphur Springs on the campus at Ohio Wesleyan.

A five gallon jug of the water was secured by Alumni Secretary S. R. Thornburg, and was sent to Washington today.

YOU'LL ENJOY THIS DOSE OF EPSOM SALTS

Don't shudder! Like drinking glass of lemonade—Read!

Instead of asking for the common Epsom Salts, ask for Epsomade Salts hereafter. You will get a big package for only 15 cents. Epsomade Salts looks and acts exactly like Epsom Salts, because it is Epsom Salts combined with fruit derivatives thus making a sparkling, effervescent, lemon-like drink for the liver and bowels. Take a tablespoonful of this delicious Salts in a glass of cold water when you feel bilious, sick, headachy or constipated and get the quick and splendid action of a dose of Epsom Salts without the horrible taste.

Epsomade Salts will replace the old Epsom Salts, Rochelle Salts, Sodium Phosphate and Cathartic Pills in every home, save local druggists. (Adv.)

Phonograph in Photography.

A photographer has found a phonograph a valuable aid in obtaining the desired facial expression in a subject. After studying the face of the person whose likeness he is to obtain he decides whether he wishes an animated, reserved, sad or pensive expression. He then places a record in the phonograph likely to stimulate the expression desired. For animation he will play such a tune as "Dixie," while to produce a sad or thoughtful expression "My Old Kentucky Home" may be played.

Keep It Nourished

"Out of the Mouths of Babes." Willie, to talkative caller—"Well, now that you've come, I suppose I shall have to go for the doctor." Talkative Caller—"Why, Willie?" Willie—"Father says you always make him ill!"

Many Times.

Haven't you observed that most of the world's mistakes are due to the circumstances that it refrains from doing things as you would have them done?—Houston Post.

LEMON JUICE FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try It!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy white the skin becomes. Yes! It is harmless and never irritates.

Law of Progress.

Let us then be of good cheer. From the great law of progress we may derive at once our duties and our encouragements. Humanity has ever advanced; thwarted sometimes by obstacles which have caused it for a time—a moment only; in the immensity of ages—to deviate from its true lines, or seem to retreat; but still ever onward.—Charles Sumner.

Unaccountably Absent Minded.

A friend of mine was being married and a host of friends were present during the ceremony, which the minister was performing most impressively. The bridegroom alone was inattentive and seemed unaccountably absent minded, when suddenly he bawled out: "Gee, I forgot to bring along the wedding ring!"—Chicago Tribune.

NEVER WORRIES AND FEELS FINE

We all have our troubles and worry, of course, makes matters worse. The patient generally recognizes this fact without being able to profit by it.

If your blood is thin and you are nervous and lack strength there is one thing to do without delay. Take Dr. Williams' Pink Pills for your blood and the rich, red blood will banish your other troubles.

"My trouble was anemia," says Mrs. Bertha M. Thomas, of No. 317 Phillips street, New Castle, Pa., "and my blood was so thin that I had no color at all. I was run down, had no life or ambition and was so weak that the doctor said that I should not even use a broom. I was very nervous and didn't sleep well. My appetite was very poor and I was melancholy and worried a great deal.

"On the recommendation of a friend I gave Dr. Williams' Pink Pills a trial and they helped me at once. I have taken six boxes now and feel as well as I ever did. I am strong and can do my household work easily. I am not nervous, sleep well and feel good when I get up in the morning. My appetite couldn't be better and I don't worry over anything any more."

Try Dr. Williams' Pink Pills for anemia, rheumatism, neuralgia, nervousness, sciatica. Build up your blood and note how the purer and richer blood fights your battles against disease.

Write today to the Dr. Williams' Medicine Co., Schenectady, N. Y., for the free booklet "Building Up the Blood." Your own druggist sells Dr. Williams' Pink Pills or they will be sent by mail, postpaid, on receipt of price, 50 cents per box or six boxes for \$2.50.

Cocconut Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain mulisified cocconut oil (which is pure and entirely greaseless), is much better than the most expensive soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dirt, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulisified cocconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

STATE BOARD TO FIX CLOSING DATE

Will Announce Ruling as to Closing of Saloons—Some Confusion as to Proper Time.

ASSOCIATED PRESS TELEGRAM
Columbus, April 18.—The state liquor board, today announced yesterday that it probably would make a ruling about May 1st as to exactly what date Ohio will become dry under the prohibition amendment to the state constitution, adopted by the voters last November.

The constitutional amendment provides that the state shall become dry May 1st of this year and that has been the severly accepted date. However, at some cities of the state local liquor board members have held that the state will become dry on Saturday, May 24th the end of the license year. Other board members have held that saloons may renew their licenses in order to operate one day on May 24th. The various contentions have caused some confusion, and the state board announced that in order to clear up any misunderstanding, it probably would issue a ruling on the subject about the first of the month.

YANKEES AMBUSH BOLSHEVIKI PATROL

ASSOCIATED PRESS TELEGRAM
Archangel, Wednesday, April 16.—A small American scouting party operating in front of the allied positions along the railway front yesterday surprised and ambushed a Bolsheviki patrol in the forest four miles east of the railway wounding a number of the enemy.

The situation in the past few days has been generally quiet. Roads which through the long winter were three feet deep in snow are now covered with ice and are thawing so rapidly that transportation is virtually at a standstill. Great cracks are appearing in the ice on the Dvina and Vega rivers and at points where the thaw is rapidly progressing there are sounds like artillery as the ice gives way.

FALLS FROM ENGINE AND IS CUT IN TWO

ASSOCIATED PRESS TELEGRAM
Dayton, April 18.—A 37-year-old married man, who was killed when he was run over by a Baltimore and Ohio railroad engine today. There was no one to witness it. It is believed that Fisher fell from the engine on which he had climbed to take a ride. His body was cut in two.

Famous Buildings in Weimar.
Conspicuous public buildings in Weimar are the Wartburg, the old ducal dower house, containing Preller's famous mural paintings of the Odyssey; the Goethe-Schiller archive, an imposing edifice on an eminence above the river Uln, in which are treasured manuscripts by famous German writers; the Liszt museum; a gymnasium; a Realschule, or school for girls, founded by the Grand Duchess Sophia; a grand ducal school of art; technical, commercial and music schools, geographical institute, teachers' seminaries and other institutions of learning.

Almost-Forgotten Author.
"Lambert Lilly, Schoolmaster," was one of the pen names of the Rev. Francis Lister Hawkes, an eminent Episcopalian divine of New York. Dr. Hawkes was born in New Berne, N. C. in 1798, and died in that city in 1866. He also used the pseudonyms of "Fraser, a Protestant Episcopalian," and "Lucie Philip." He wrote "The Early History of the Southern States," and had it published under the pen name "Lambert Lilly, Schoolmaster," in 1832.

Browning's High Ideals.
Probably the writer who most frequently refused money was Robert Browning the poet. During the last 25 years of his life editors offered large sums for a short poem from him. But Browning said "No." He told his friends when they pointed out the unwisdom of this course that he was determined not to thrust his poems down the throats of the people; that if they wanted to read them they could buy his books.

Improved Lightship Bell.
A new lightship also has a bell, which is made to ring automatically by means of a highly ingenious device which utilizes the gas as it passes from the tanks to the lantern, to actuate the bell clapper. The light is not interfered with in the slightest degree by the operation of the bell-striking device. It is only set in motion, however, in very foggy weather, when the light cannot be distinguished at any great distance.

Standard of Taste.
One of my fellow wage-slaves (Frederic Long) is the proud possessor of an exceedingly nice shirt—white, with wide orange and purple stripes, if you will believe it. One evening he was calling on some friends who have a five-year-old daughter. The youngster gazed wide-eyed at the screaming combination, then, rubbing her hand over the shirt front, inquired: "What kind of a flag is that?" —Cleveland Plain Dealer.

Sound-Proof Council Room.
The apartment at 10 Downing street, where the meetings of the British cabinet are held, is a cold and plainly furnished room, 15 feet long and 20 feet wide, lined with double doors, upholstered, which no sound can reach the least listening ears.

Quick Relief for Sore Throat

A few applications of healing, antiseptic Houstonia (The Original Jones') Liniment, works wonders in acute or chronic sore throat. Apply Houstonia liberally at night, wrap throat with warm flannel—and wake up well.

Even in extreme cases, an occasional gargle or spraying, with an atomizer, stops the soreness. Houstonia Liniment does not burn, smart nor blister the skin or membranes. Its action is soothing—and immediate.

For fifty years it has been depended upon for emergency and general use in thousands of homes.

Ask your druggist for "House-tone-a-h" Liniment—4 oz. bottle 25c—large bottle 50c.

Mrs. C. E. Bieder, 59 E. Long St., Columbus, Ohio, says: "I am troubled with a weak throat and every cold contract settles there. I have used your liniment the best remedy I have ever used. One application before going to bed, gives me instant relief and always relieves my sore throat."

LOCAL MAN TO ERECT BUILDING

O. J. Hawkins and Son Will Build Structure for Car-roll Store—Cost to Exceed \$100,000.

Out of 19 bidders for the contract of erecting the new J. J. Carroll store, O. J. Hawkins of the Newark Trust Building was awarded the contract yesterday afternoon.

Bids were received from Cleveland, Pittsburgh, South Charleston, Zanesville, Newark, Columbus, and numerous ones from New York City. The bid was for considerably over \$100,000 and the work is to start at once.

No change has been made in the plans, which were drawn some time ago, and the new structure is to be completed by November 1.

Hawkins had many of the larger contracts in Newark, erecting the new First Baptist church, the K. of P. building, and the new building at the Holoplane company.

The new building is to have a frontage of 70 feet and will be 193 feet deep. It will be three stories high.

The building will be of brick, and is arranged with every detail complete as to the most up-to-date way of displaying stock and caring for the needs of customers.

For the present the J. J. Carroll store is located in South Third street with the exception of the Victoria department, which is in Hudson avenue.

Excavation for the store has been pushed rapidly in spite of inclement weather, and the work of erection can start at once.

OBITUARY

E. A. Davidson. Utica, April 18.—E. A. Davidson, known as "Ted" Davidson, died Wednesday morning at his home in Mill street. He had been at the State Sanatorium and a Columbus hospital suffering with tuberculosis. Last Saturday he was brought to his home here where death resulted.

Philip Coffman. The funeral of Philip Coffman, who died Wednesday, will take place Saturday at 2 o'clock in the Vanantashurgh church, and interment will be made in Evans' cemetery.

Mrs. R. Parson. Word has been received of the death of Mrs. R. Parson, formerly Larson, of Delaware. Mrs. Parson attended the Larson centennial at Mountbuilders Park in 1917 and has many relatives and friends in Newark. She was born near Owl Creek church north of Utica 76 years ago. Her husband is Prof. R. Parson, and was one of the instructors at recent teachers' institute held in Newark.

Mrs. Clara Ford. Clara Axie Jewett, daughter of Lucian and Eliza Ann Jewett was born September 26, 1856. Died April 3rd, 1919, aged 62 years, 6 months and 8 days. She was united in marriage to James Ford, March 11th, 1880. To this union two children were born, Miss Maud of the home and Howard Ford of near Hebron. She leaves to mourn her departure besides the husband, son and daughter, one sister Mrs. Henry Ashton of Newark and one brother Sheldon Jewett of near Hanover, besides a large circle of relatives and friends. She was a devoted wife and mother. A friend to all in need.

and a faithful christian. Having united with the Licking Baptist church, a number of years ago, during the pastorate of Rev. B. G. Bowman. Always loyal to Her Lord and the work of his Kingdom.

"They shall rest from their labors and their works do follow them."

THE UNIVERSAL CAR

Because of its all-around utility, the Ford one-ton truck—with worm drive—has made itself an absolute business necessity. It's so dependable in service wherever placed, flexible and sure in control and low cost of operation and maintenance and possessing that vanadium steel strength, it has become the want in every line of business, from retail merchant to manufacturer, from engineer to contractor, from corporation to farmer. Let us tell you details and give you a demonstration.

MILLIONS ARE SAVED ON FARM NITRATES

(Associated Press Telegram)
Washington, April 18.—More than \$1,500,000 will be saved to the farmers this year as a result of the action of the government in making available at reduced prices large quantities of nitrate for fertilizer. After the armistice was signed the war department turned to the department of agriculture 11,000 tons of nitrate produced during the war for use in explosives. To this quantity is added forty thousand tons received from Chile by the agricultural department too late for distribution last year. Under authority of the food control act the nitrate is to be sold at cost and already, says a statement today by the department, farmers have taken up the full 151,000 tons in orders ranging from 200 pounds to 300 tons.

GIRL IS SHOT DEAD BY UNKNOWN MAN

(Associated Press Telegram)
Chicago, April 18.—The murder of a young woman in the street on the West Side late last night by an unidentified man caused Chief of Police Garrity to appeal to the city council today for additional patrolmen to suppress the wave of crime which has swept the city for several days.

A witness to the slaying of the young girl told the police the couple was walking together and the man placed his arm around the girl. She broke away and ran across the street, but was quickly overtaken by the man who drew a revolver and glancing the girl by the hair fired four shots into her head and then disappeared.

There were no marks of identification on the body except the name "Emily" on her underwear.

ICE PLANT ENGINEERS ASK 70 CENTS HOUR

The stationary engineers of the Newark Ice and Cold Storage company are still out on strike, pending an adjustment of the new wage scale adopted by the local union, which is 70 cents per hour for chief engineers, 60 cents per hour for operating engineers and 50 cents per hour for firemen.

The new scale has been accepted by numerous plants over the city. The municipal plant was one of the first to adopt it. One of the officials of the International Steam Engineers' association is in the city assisting the local union in its installation of the new wage scale.

TROOPS LAND AT BOSTON

To Platinize Silver.

Place some platinum in a small quantity of aqua regia or nitro-muriatic acid, and keep it in a warm place a few days; it will dissolve. As soon as it has dissolved, evaporate the liquid at a gentle heat until it is as thick as honey, so as to get rid of the excess of the nitric and muriatic acids. Add a little water, and it is ready for use. A dozen drops of this solution goes a long way in platinizing silver. The operation is performed in a small glass or beaker, covered with a watchglass to keep in the fumes, and placed in a little sand in a saucepan, to equalize the heat.

World's Debt to the East

Civilization was born in the East. For ages letters, art, religion flowed westward from Asia. When Europe was a wilderness, peopled only with savage, wandering tribes, learning and government flourished beyond the Danubian. From Armenia, Syria and Persia came both the Jewish and the Christian religions, the alphabet and much of science. Long since the tide turned. Civilization among these eastern peoples began to ebb, and they have slipped far back toward their pastoral days.

Wild Goose Hides Eggs

The domestic goose is derived from wild species. The pioneer settlers saw their domestic geese run wild in bushes and almost revert to their primitive state. Now, the goose constructs a very pretentious nest on the ground. The eggs are so large and white that they would attract unfriendly notice at a considerable distance. To avoid this dangerous publicity the eggs are carefully covered over when the owner leaves them even for a short time.

It Couldn't Be Done

There was a hard-boiled sergeant who delighted in "locking on" the men just from civilian life. One day he was giving the command "Right dress," and one of the fellows was napping and did not do as commanded, after the sergeant had called it out several times. Then the sergeant was furious and shouted to the fellow: "Hey, you, dress right!" And somebody else helped: "How can you dress right on \$9 a month?"

Nell Wynne Custom

The custom of placing an orange on a plate near the door of a bar, chapel, hotel or the Sunday after Christmas is probably a survival of the custom which prevailed of the chief of the tribe of the North German. In this custom it was used as a memory of the fact that the tribe was to be kept in a state of readiness for the winter.

It's the Truth That Hurts

An item is going the rounds of the Canadian press to the effect that a New York state paper is being sued because a copy made an editorial conclude, "May be read in peace!"—Fourth Estate.

CITY NOW BUT A MEMORY AVIATORS TO PATROL WOODS

Ur, Birthplace of Abraham, Once Important, Today Consists Only of Vast Group of Mounds.

The British, on their recent advance in Mesopotamia, passed over or at least near the ancient city of Ur, where Abraham was born and grew up; and thence that he departed with his family and relations on a journey to Palestine that was destined to be so productive of important events for the Hebrews.

We are accustomed to think of the days of the early Pharaohs as almost lost in antiquity, but Ur was prehistoric. Eight thousand or 9,000 years ago that great Chaldean city was a seaport on the shore (or near it) of the Persian gulf. It traded with India and all the then known parts of the world.

Today Ur (or what remains of it) is 120 miles as the crow flies from the head of the Persian gulf. Surely it has not moved; but the alluvial deposits carried down by rivers, have built out the land, so that the head of the gulf is no longer where it used to be. The pushing southward of the shore line is known to have averaged about a certain distance yearly since the time of Alexander the Great, so that the period when Ur was a seaport can be reckoned with fair accuracy.

Ur today is about half-way between the head of the gulf and the ruins of ancient Babylon. It is near the Euphrates—across the river from the modern town of Nasareth—and is represented by a vast group of mounds that conceal remains of extraordinary interest. Undoubtedly it was that destroyed this ancient metropolis—as it seems to destroy everything that is worth while, sooner or later.

Out of one huge mound has been dug the remains of a pyramidal tower which is regarded by Assyriologists as the most perfect specimen of Babylonian architecture known. It is built in a series of stages, like the tower of Babel, with a continuous flight of broad steps running up the outside. It originally supported a temple—the great Temple of the Moon.

SOME COMFORT FOR "SMOKE"

Company's Pet Assured of Good Qualities, Though He Wasn't Equal to Fighting Monkeys.

Three companies of colored engineers at a big medical supply depot somewhere in southern France have three mascots of which they think the world. One is Bobo, the baboon. One is Smoke, a little black French dog. One is Peoria, a 11 1/2 yaller dog—a real O. D. brindle.

Bobo is no respecter of persons. He will climb all over his toe sergeant with the unholy glee of a fussy inspecting officer and rough him to a fare-you-well. But his main penchant seems to be for pulling little dogs' ears, a trait bitterly resented by the guardians of Smoke and Peoria, but filling with delight his own adherents. "Day can't fahnd a dawg in all dis yerc camp wot'll stain' up agin him," they chuckle, when Bobo swears his long arms and lopes after some mongrel that has strayed in.

Not so long ago a pathetic scene might have been witnessed on one of the company streets. Smoke was being carried along, in a covering, timid state bordering on shell shock or mental collapse, by a great hulking stevedore, who was attempting to soothe him.

"Doan' yo' keer, Smoke," he crooned. "Doan' yo' bother a bit if folks laughs at yo'. Even if yo' cin't fight no B camp'ny monkeys, yo's doz best! I'll black dawg as ever wuz borned een France, so yo' is!"

And Smoke nodded and sniffed a rather fearful appreciation.—Stars and Stripes.

Mummies Show Arteriosclerosis. Egyptian mummies show that arterio-sclerosis afflicted the ancient Egyptians, and it has been established that tuberculosis is at least 2,000 years old, according to the Journal of the American Medical Association.

"Mummies have revealed that humanity has not changed in its pathological reactions in fifty centuries at least. It is illuminating to realize that in spite of the fact that the ancient Egyptians led lives of ease, had no tobacco, and did not overindulge in meat eating, their arteries degenerated practically in the same way as our own."

Mine Tungsten in Australia. Australia is second in importance among British territories producing tungsten ores. In Queensland many of the principal mines have quite recently been acquired by one of the largest of the concerns which have established tungsten reduction plants in Great Britain since the war, and the event appears to promise a new era of progress for this branch of mining in Queensland. Wolfram is mined in New South Wales and Victoria, while important quantities of scheelite, another ore of tungsten, are obtained in New Zealand and in Tasmania.

France's "Sacred Road." The French government is arranging for the construction of a "sacred road," 400 miles long, from the coast of Flanders to Alsace. It is proposed that this road should follow, as far as may be found practical, the actual line on which the contending armies faced each other for three years.

In the countless woods through which this road will ultimately pass will be found the beautifully tended graves of those who have given their lives for their country.

Even on the less busy days a man may feel fortunate in the knowledge that his goose is cooked.

BUTTERMILK CREATES BEAUTY OVERNIGHT

Delightful New Vanishing Cream Contains True Buttermilk Makes You Look Years Younger or Money Back.

The first application of Howard's Buttermilk Cream will astonish you. It creates beauty almost like magic, but the most wonderful thing about it is the fact that whilst it turns the dull and most lifeless complexion to radiant beauty and makes red or rough arms snowy white, yet there is not the slightest sign of its use after application. It actually vanishes from sight and the most heated atmosphere will not produce the least shininess or soreness of the skin.

There is no secret about it nor is there any doubt about the result—it's just common ordinary Buttermilk in the form of a wonderful cream gently massaged with the finger tips around the corners of the eyes and mouth.

To prove this to your complete satisfaction obtain a small quantity of Howard's Buttermilk Cream at T. J. Evans, W. A. Erman or Mykranitz Co., on the money back if dissatisfied plan. The directions are simple and it costs a little that any girl or woman can afford it.

TO RELIEVE CATARRH, CATARRHAL DEAFNESS AND HEAD NOISES

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows.

Secure from your druggist 1 oz. Parmit (Double Strength). Take this home and add to it 1 1/2 pint of hot water and a little granulated sugar, stir until dissolved. Take one tablespoonful four times a day.

Parmit is used in this way not only to reduce by tonic action the inflammation and swelling in the Eustachian tubes, and thus to equalize the air pressure on the drum, but to correct any excess of secretions in the middle ear and the results it gives are nearly all ways quick and effective.

Every person who has catarrh in any form, or distressing rumbling hissing sounds in their ears, should give this recipe a trial.

T. J. Evans.

HIGH AMONG WORLD'S GREAT

Despite His Admitted Fraillies, the Name of Robert Burns Is a Deathless One.

One hundred and sixty years ago there was born in Ayrshire in Scotland a poor man's son who spent his own life in poverty or the next thing to it. He was born and lived in an out-of-the-way place at a time when out-of-the-way places were hard to find. And yet he is remembered still, though all the rich men of his time are forgotten. The world made a beaten pathway to his door and still travels the path in ever-increasing numbers as the years go by.

Also, this man, as a man, was as weak as water. If he were living today in any half-strait-laced community, he would be branded as a social outcast. He was a profligate.

Yet, with all that, and more, no memory is more beloved than the memory of him now, a century after he passed into the silence and charity of the grave. No other name is better known or upon more lips today than his. Among the palm-crowned company of the poets, he stands with the five greatest.

The man was Robert Burns, and all that we have heard said concerning him merely proves that song is the most deathless of all things. The songs that Burns made touched the deepest depths of the human heart. They leaped the quiet boundaries of obscure Ayrshire and swept the whole world with their wondrous music.

We have mentioned his faults only to prove that human frailties have nothing to do with divine genius. God could have chosen a saint upon whom to bestow the gifts that he bestowed on Robert Burns, but he did not do so. He chose a sinner.

Wherefore, "There are more things in heaven and earth, Horatio, than are dreamed of in our philosophy."—Los Angeles Times.

BIG AFTER-PEACE SCHEMES

Oil Pipeline Across the Atlantic Is Among the Wonderful Things That Are Proposed.

What with the channel tunnel, the proposed 22-mile bridge from Folkestone to Cape Gris Nez, not to mention the tunnel to Ireland, there are some big schemes ahead, if they all materialize, observes London Answers. But a still bigger, it would seem, is the latest American project for a line of huge pipes beneath the Atlantic for the transport of oil from the American oil fields direct to Europe.

This, of course, would be by far the longest pipe line in the world. America has a number of oil pipe lines, which convey the petroleum from the wells to the coast, and direct into the tankers. But the longest pipe line in Europe for the conveyance of mineral oil is the one which connects the now war-torn town of Baku, on the Caspian sea, with Batum, on the Black sea, both of which towns are now under allied control. This pipe line was completed just before the war and will now be fully restored to working order. It is 550 miles in length and has a carrying capacity of 400,000,000 gallons a year.

Gipsies Modernized.

Even the gipsy caravan is becoming modernized. One hears of a band of nomads "gipsying" through Indiana in automobiles, and, even more surprising, cooking on kerosene stoves instead of by camp fires, and washing clothes with electric washing machines. But this must be an unusually up-to-date band of gipsies. For five hundred years, since their first recorded appearance in eastern Europe, the gipsies have been going about the world, keeping curiously intact the habits, character and language that modern ethnologists believe they brought with them from India; and remained always an odd combination of picturesque vagabondage and personal conservatism. Perhaps, however, these highly modern gipsies anticipate the future and are beginning, as they traverse the country, to trade second-hand automobiles as they used to trade horses.

Phone Apparatus for Airmen.

A simple telephonic apparatus has been developed for airmen to enable pilot and observer, or passenger, to communicate freely with each other while aloft, says Popular Mechanics magazine. A sensitive receiver and a dictograph transmitter are incorporated in a helmet. Held firmly in place before the wearer's lips by elastic straps is the mouthpiece of a speaking tube. The latter conveys the voice sound vibration to the transmitting instrument, while cutting out and eliminating to a large degree the motor noises. The two helmets are connected by wires. Each of the helmets is provided with a flexible cord which plugs into a receptacle in the fuselage.

Hopeless Case.

At one of the theological seminars they tell of an absent-minded professor who while studying one evening had need of a book mark, and for the purpose employed a pair of his scissors that chanced to be at hand.

Shortly after his wife visited the scissors but a diligent search on her part and his own failed to disclose them.

The next day the professor appeared before his class and opened his book. "There lay the lost scissors," he picked them up and with a triumphant smile, held them aloft, saying: "Here they are, dearie!"—Harper's Magazine.

It's a good thing that a poor one either way.

Relieve Your Indigestion With A Laxative

Dyspeptics know that indigestion is accompanied by constipation, and that until the bowels can be regulated so they will act freely and naturally every day at a stated time, swallowing dyspepsia tablets is of little use.

A great and growing number of sufferers from this trouble find immediate and then permanent relief by the use of a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin. The laxative herbs act on the bowels and the pepsin extracts on the digestive tract, forming an exceptionally effective laxative- tonic.

It is a combination that has been found wonderfully helpful in indigestion, constipation, biliousness, headaches, bad breath, belching and gas on the stomach. A small dose is all that is required.

The druggist will refund your money if it fails to do as promised.

CHARGES GIRL TOOK HIS ROLL

Man Discovers Loss When
Taxi Driver Asks For Fee
—Was Riding With Girls

Ed Swan, a blacksmith from near Pittsburgh, Pa., came to Newark to have a good time—and he had it—but it proved a little costly to him, and now he is weeping for his bankroll and charges a young girl, Dorothy Ritter, with having "rolled" him for a century. Swan hit two spots yesterday with a taxi and two women companions, Lena Wilson and Dorothy, mentioned above, he told the police. He said he was joy-riding and paying for all the highballs along the route. Hour after hour was reeled off until the supper hour when they returned to the rooming place of his companions and when he went to settle the taxi bill the greenbacks, issued by Uncle Sam, which he had in his possession, which he claim-

ed was \$100, had vanished. "The driver reported to Chief Jas. Sheridan and he subscribed to an affidavit charging Swan with refusing to pay taxicab fare. Swan and his companions were arrested and taken to the city prison where he charged the Ritter girl with robbing him. The other woman is also held. They will have their hearing Saturday morning.

O. E. ENGINEER ASKS NEW DATE

Wants to Meet County Officials Next Week to Talk About Eleventh Street Bridge.

The county commissioners were notified late yesterday afternoon by Chief Civil Engineer Suckmaker of the Ohio Electric railway, that it would be impossible for him to meet with the board for consultation on the Eleventh street bridge matter, and suggested that the commissioners name a later date next week. It is the intention to strengthen the bridge that it may be used by the interurban cars of the railroad company.

PYTHIAN LODGE INITIATES FIFTY

"Old Thirteen" Takes First Place Among Pythian Lodges of Ohio in Membership.

More than 350 members of Newark Lodge, Knights of Pythias, met last evening at 7 o'clock and celebrated "The Lesson of Friendship," in dramatic form upon a class of 50 candidates, 40 from Newark lodge, four from Rowland lodge, also of this city, and six from Monitor lodge of Columbus. A number of new applications were presented and the "Two-for-one Class" was also received, making Newark lodge the largest in the state and giving it the ranking honor, as a consequence of which the lodge has dubbed itself "The Peacocks of Ohio."

After the ceremonies a buffet luncheon was served, guests being present from Columbus, Millersport, Dresden, Mt. Vernon and several other places. A number of addresses were made by Grand Master of Exchequer Donovan, Messrs. Chapman, Kemper, Harbert and others.

Harvey J. Alexander presented Edward J. Schmidt with a loving cup in recognition of his services to the lodge and his activities as the chairman of the lodge's committee on public affairs. Responding to the donors and his fellow-committeemen for their aid.

COMMUNITY BLDG. IS MOST POPULAR

Reports From Other Cities Indicate That Soldiers' Memorials are Practical Structures.

The dinner to discuss plans for a suitable memorial for Licking County's soldiers and sailors of the world's war will be held at 6:30 o'clock this evening in the Masonic Temple.

C. Harrington Davis will preside and any one interested in the project is invited to attend.

J. Appleyard, Jr. of the Chamber of Commerce will present the facts secured by him concerning the various forms other communities are considering. The preference is given memorial buildings, which will be the home of community center and public libraries. The architecture of many of the proposed buildings is extremely attractive.

FREEDOM

To those enslaved by sin, whether in the form of faults of disposition or by the grosser forms of sensuality and vice; to those in bondage to worry, poverty or sickness; Christian Science offers healing. God is love. His children that He constitute bestows on them His blessings of freedom, purity, abundance and joy, but in order to receive and accept these gifts, man must have an understanding of God and His love. Christian Science reveals to man his heritage, his right to be good, to be healthy and happy; and enables him to demonstrate the divine principle of all goodness, health and harmony in daily life. No problem is so small, none so large, that it cannot be adjusted by the law of God for "The love of God is broader than the measure of man's mind; And the heart of the Eternal Is most wonderfully kind."

PATASKALA OIL WELL IS GOOD PRODUCER

The new oil well on the Miller farm near Pataskala is showing a good flow. A conservative statement says that by running the well will produce from 40 to 12 barrels a day. Since work has commenced on the new hole, the oil from the old well has practically disappeared which would indicate that both wells strike the same pool.

GIRLS' CLUB TO AID HOSPITAL

Twentieth Century Club To Sell Tags on Streets Saturday For Improvements At Hospital.

Buy a tag please? That is the question which will greet you tomorrow, and you are to smile pleasantly at a young miss and buy the tag, for they are for a splendid purpose. The girls of the Twentieth Century club will conduct their annual tag day for the benefit of the City Hospital. There will be 11 teams, averaging from six to ten girls each on the street all morning and afternoon, and each team will be captained by the members of the Twentieth Century club. The club plans to make some needed improvements at the hospital with the money obtained. The personnel of the club is Laura Begg, Dorothy Wilson, Mary Kibler, Margaret Eader, Helen Norpell, Marian Montgomery, Hazel Colville, Anna Haynes, Mildred Simeon, Mary Windie, Neva Huishizer and Elizabeth Kibler. These young women a few years ago organized a little club, but they soon tired of it merely as a social organization and they decided they wanted to make some money for something. So the hospital was suggested and their first effort was a little impromptu lawn party. So successful was the event, that they directed their efforts to equipping the boys' ward at the City Hospital and in the past few years, their scope has widened tremendously. Recently the district meeting of the state federation of women's clubs was held here, and one of the state officers was so attracted with the story of the efforts of the young women that a resume of their splendid work will appear in the state federation's official paper. So tomorrow when accosted with the question, "Buy a tag," they ask that you make a courteous and if possible liberal response.

GOOD FRIDAY SERVICE
PAYS TRIBUTE TO DEAD

The annual Good Friday Matin service at St. Paul's church this morning at 6:30 o'clock called forth not only a good many of the members of the congregation but a large number of friends of the congregation. "This service has become one of the most precious of the year to an ever increasing number of the people," said Rev. George Bohon Schmitt, pastor of St. Paul's. It has been found a fitting prelude to the joyous celebration of the Resurrection. This year especially so since the signing of the armistice and the ensuing decreasing number of the "boys" of the congregation are returning home. A list of 65 young men and women have gone forth from this congregation and Sunday school into the service of our country.

The pastor in this remarkable made special mention of the sacrifice made by the "boys" not only of St. Paul's but from every home in the land. His theme for the service was "The Price That Was Paid." He paid eloquent tribute to the lives of the three young men of the congregation who paid the supreme sacrifice in the great war.

The service on Easter will begin with the Matin service with Holy Communion at 6:30 o'clock. The Bible school under the superintendence of Charles Dewar will be held at the regular hour 9:15. The morning worship at 10:30 at which time the Holy Communion will also be celebrated. Children to be baptized will be presented at this service.

The services for the day will conclude with the rendition of a sacred cantata, "Death and Life" by Harry Rowe Sheller, and will consist of solos, duets and choruses.

This cantata is presented under the direction of Mrs. Schmitt and will be well worth the time spent in hearing its rendition. The public is invited to these services.

Karl's "Nothing to do but wait for the day."

Gerard Besenrodt "Looks like a chance to make a premium. These bonds in a short time ought to sell well over a hundred cents on the dollar. Let's all buy and let our will respect and make money doing it."

SHAWNEE BOY SEES MUCH HARD FIGHTING

Private John Carr, whose home is in Shawnee, is a guest at the home of his son, Mrs. L. J. Carr, at 1814 1/2 Street.

He was a member of a machine gun company in the 30th division and has just returned from overseas. Private Carr has had many thrilling experiences and in speaking of them he stated that in a two hour engagement at St. Martin's in the Argonne region, in which they supported the artillery, they went in with 172 men and came out with only 25.
